and trading became extremely quiet on the rise.

With the supply from foreign markets cut off by completion of London, which aggregated 25,000 shares, traders were obliged to hid higher for stocks and the market advanced.

Reading scored a full recovery but the rest of the list came to a hair midway between the lowest of the forenoon and yesterday's close.

The market closed steady. Slight pressures again showed in pertions of the list. The general run of stocks retained the small garier recoveries, closing at declines ranging from half a point to two points.
